Good afternoon –

FDA does not. However NIH does. It is called Clinicaltrials.gov. Please their web page below.

Dear FDA Office of Good Clinical Practice and CDER,

I'm the publisher [redacted] and I just left a voice message at 301-796-8340. I'm doing research on where I can find the best places (websites) for existing clinical trials in the U.S. and/or the world. Does the FDA website have clinical trial data that I can access? If not, can you point me in the right direction on where to access information on existing clinical trials?

Thanks,
