Good morning --

FDA does not generally oversee social or behavioral research. You might want to contact OHRP. Please see their contact information below.

Hello,

I am currently looking for new training materials regarding conducting social and behavioral research. We currently use "Institutional Review Board: Management and Function" by Amdur and Bankert. I was wondering if you know of any newer books that are recommended as good training and reference materials?

Thank you,

Z^aa&c^aa
