Good morning –

FDA regulations do not prohibit the printing of the ICD on both sides of the page. (front and back)

Kind regards,

Dear Sr/Madam,

I would like to consult you about ICFprinting. I have an impression that ICF can not be printed in 2 sides of page but can not find the supporting document or rationale. Do we have any requirement to print ICF on each page (not 2 side of page)?

Your feedback is highly appreciated.
