Good afternoon –

Please see the 1572 form guidance document below. Both forms should be legibly completed. I believe it is best to use the full name of the study to make the forms more completed accurately.

**18. How should the 1572 be completed?**

*The 1572 on FDA's website may be completed by typing the information directly into the fillable form and printing the completed form. Alternatively, it is acceptable to print the blank form from FDA's website and hand-write or type the information onto the form. Typed forms are preferable because they are usually more legible. The completed form must be signed and dated by the investigator (either by hand or using an acceptable electronic method).*

Please see the guidance document on financial disclosure.

“Nicknames” for the study be used on these documents. Where is this information located?
